## 109TH CONGRESS 1ST SESSION

## S. RES. 182

Supporting efforts to increase childhood cancer awareness, treatment, and research.

## IN THE SENATE OF THE UNITED STATES

June 28, 2005

Mr. Coleman (for himself, Mr. Lieberman, Mr. Brownback, Mr. Allen, Mrs. Lincoln, Ms. Landrieu, Mr. Reed, Mr. Salazar, and Ms. Mi-kulski) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions

## RESOLUTION

Supporting efforts to increase childhood cancer awareness, treatment, and research.

- Whereas an estimated 12,400 children will be diagnosed with cancer in the year 2005;
- Whereas cancer is the leading cause of death by disease in children under age 15;
- Whereas an estimated 2,300 children will die from cancer in the year 2005;
- Whereas the incidence of cancer among children in the United States is rising by about one percent each year;
- Whereas 1 in every 330 Americans develops cancer before age 20;

- Whereas approximately 8 percent of deaths of those between 1 and 19 years of age are caused by cancer;
- Whereas while some progress has been made, a number of opportunities for childhood cancer research still remain unfunded or underfunded;
- Whereas limited resources for childhood cancer research can hinder the recruitment of investigators and physicians to pediatric oncology;
- Whereas peer-reviewed clinical trials are the standard of care for pediatrics and have improved cancer survival rates among children;
- Whereas the number of survivors of childhood cancer continues to grow, with about 1 in 640 adults between the ages of 20 and 39 having a history of cancer;
- Whereas up to <sup>2</sup>/<sub>3</sub> of childhood cancer survivors are likely to experience at least one late effect from treatment, many of which may be life-threatening;
- Whereas some late effects of cancer treatment are identified early in follow-up and are easily resolved, while others may become chronic problems in adulthood and may have serious consequences; and
- Whereas 89 percent of children with cancer experience substantial suffering in the last month of life: Now, therefore, be it
  - 1 Resolved, That it is the sense of the Senate that Con-
  - 2 gress should support—
  - 3 (1) public and private sector efforts to promote
  - 4 awareness about the incidence of cancer among chil-

	9
1	dren, the signs and symptoms of cancer in children,
2	treatment options, and long-term follow-up;
3	(2) increased public and private investment in
4	childhood cancer research to improve prevention, di-
5	agnosis, treatment, rehabilitation, post-treatment
6	monitoring, and long-term survival;
7	(3) policies that provide incentives to encourage

- (3) policies that provide incentives to encourage medical trainees and investigators to enter the field of pediatric oncology;
- (4) policies that provide incentives to encourage the development of drugs and biologics designed to treat pediatric cancers;
- (5) policies that encourage participation in clinical trials;
- (6) medical education curricula designed to improve pain management for cancer patients; and
- (7) policies that enhance education, services, and other resources related to late effects from treatment.
